

**REMARKS**

Claims 1-14 remain in the application for consideration of the Examiner with Claim 15 standing cancelled.

Reconsideration and withdrawal of the outstanding rejections are respectfully requested in light of the above amendments and following remarks.

Turning now to the art rejections, Claim 1, 4, 6-10, 13, and 15 were rejected under 35 U.S.C. § 103 as being unpatentable over Barkat in view of Ishida; and Claims 2, 3, 5, 11, 12, and 14 were rejected under 35 U.S.C. § 103 as being unpatentable over Barkat and Ishida in view of Yablon.

These rejections are respectfully traversed.

It is respectfully submitted that Barkat does not disclose or suggest the presently claimed invention including the playing the associated audio file corresponding to the match between the audio input from the user and one of the templates.

Barkat discloses at column 4, lines 20-25 that the codec 50 also converts the pre-defined vocal messages and any other voice output to an analog format which is then provided to the microphone 20.

Other than the above, Barkat has nothing to do with the originating call.

Ishida does not disclose or suggest the presently claimed invention including playing the associated audio file corresponding to the match between the audio input from the user and one of the templates.

Ishida does not disclose playing of the associated audio file.

Whether or not Yablon discloses a display and whether or not it would have been obvious to combine these teachings with Barkat or Ishida is of no moment since the resulting construction would still in no way disclose or suggest the presently claimed invention.

In light of the above, it is respectfully submitted that the present application is in condition for allowance, and notice to that effect is respectfully requested.

While it is believed that the instant response places the application in condition for allowance, should the Examiner have any further comments or suggestions, it is respectfully requested that the Examiner contact the undersigned in order to expeditiously resolve any outstanding issues.

To the extent necessary, Applicant petitions for an Extension of Time under 37 CFR 1.136. Please charge any fees in connection with the filing of this paper, including extension of time fees, to the deposit account of Texas Instruments Incorporated, Account No. 20-0668.

Respectfully submitted,
